**Performance Tasks of information and communication technology ICT Grade 6**

STUDENT NAME : .....

Task implementation date: .....

Task implementation time: A period (2 lessons)

الخوارزمي بلال نصير

**Performance Task (1)**

**"COMPUTER NETWORK DEVICES"**

**Task Description**

Dear student... You have previously studied networks and their types and have learned that networks are groups of things linked together for common purposes. You have a set of choices, move them to the appropriate place...

**- Wireless networks**

**- Wired networks**

**- Modem**

**- SWITCHES**

No	Tool	Description
1	.....	I'm a type of network that uses wires and cables which are plugged into ports on devices.
2	.....	I'm a device that can send data to a specific device over a network, which helps to make connections easier and faster. So, I'm intelligent device
3	.....	I'm a type of network in which devices are connected without wiring using Wi-Fi.
4	.....	I'm a device used to converts the signal from the internet service provider (ISP), which transforms into a digital signal that can be read by devices to connect the internet.

### Performance Task (2)

الخوارزمي بلال نصير

## "TECHNOLOGY AND ARTIFICIAL INTELLIGENCE (AI) "

### Task Description

Dear student...You have previously studied the technologies of artificial intelligence (AI), virtual reality (VR), and augmented reality (AR). You have a set of applications for these technologies. Select the appropriate technology for these applications...

- Artificial Intelligence AI
- Virtual reality VR
- Augmented Reality AR

No	Technology	Applications to use
1	.....	I'm a technology that helps you see and show what new furnishings will look like in your home.
2	.....	I'm a technology that a robot vacuums cleaner uses to avoid furniture and stairs.
3	.....	I'm a technology that helps you online tour of the tomb of King Tut, that allows you to "walk" through the tom.

### Performance Task (3)

## "Operating Systems "

### Task Description

Dear student... You have previously studied the various operating systems for computers and the operating systems for smartphones. You have a group of operating systems in front of you. Do the following:

Draw  a circle around the operating systems for smartphones and mobile phones.

Draw  a box around the operating systems of computers.

Apple

iOS

Windows

MAC

Android

**Performance Task (4)**

**" Website design "**

**Task Description**

الخوارزمي، بلال نصير

Dear student... You have previously studied some HTML Tags. In front of you is a web page. Choose the appropriate Tags to implement the components of this page and write its resulting Tag .

HTML Tags that need to be moved to the appropriate place.

**<strong> Bold text </strong>**

**<i> Emphasized text </i>**

**<h1> Largest Heading </h1>**

**<font size="1"> ICT </font>**

Move the Tag to the appropriate place in the figure below

The diagram consists of four empty rectangular boxes with red borders and dotted lines inside, arranged vertically on the left. Red arrows point from each of these boxes to a larger rectangular box on the right with a blue border. This larger box contains the following text from top to bottom: "Largest Heading" (in a large, bold, black font), "ICT" (in a regular black font), "Emphasized text" (in an italicized black font), and "Bold text" (in a bold black font).

**Performance Task (5)**

**" HOW TO DEAL WITH ELECTRONIC GAMES"**

**Task Description**

Dear student... You have previously studied some of the **dangers** resulting from electronic games. You have some **dangers** in front of you. Classify them according to their type.

Are they **physical dangers, psychological dangers, or security dangers**?

Feeling lonely

.....

Personal Information Theft

.....

Feeling eye strain

.....

Your relationship with your family is strained.
